DISCLAIMER

This communication is provided for information purposes only. This is not an offer to sell or solicitation of an offer to purchase any currency or token. This document does not constitute a prospectus nor offer document of any sort and is not intended to constitute an offer or solicitation of any investment or other product or service in any jurisdiction. This document does not constitute advice to purchase any AUTO TECH FORTUNE Tokens nor should it be relied upon in connection with any contract or purchasing decision, accounting, legal or tax advice, or investment recommendation.

The purpose of the information contained in this Whitepaper is to summaries certain developments with respect to the Project which may be of interest to the recipient. The views expressed in this Whitepaper are the subjective views of the \$ATF Project personnel, based on information which is believed to be reliable and has been obtained from sources believed to be reliable, but no representation or warranty is made, expressed or implied, with respect to the fairness, correctness, accuracy, reasonableness or completeness of the information and opinions. Certain information contained in this Whitepaper constitutes forward-looking statements, which can be identified by the use of forward-looking terminology such as “may”, “will”, “should”, “expect”, “anticipate”, “target”, “project”, “estimate”, “intend”, “continue”, “believe”, or the negatives thereof or other variations thereon or comparable terminology. The information contained in this Whitepaper is current as of the date indicated in it.

The project as described in this Whitepaper is under development and is being constantly updated, including but not limited to key governance and technical features. The token (as described in this Whitepaper) involves and relates to the development and use of experimental platforms (software) and technologies that may not come to fruition or achieve the objectives specified in this Whitepaper. If and when the platform is completed, it may differ significantly from the platform set out in this Whitepaper. No representation or warranty is given as to the achievement or reasonableness of any plans, future projections or prospects. Nothing in this document is or should be relied upon as a promise or representation as to the future.

AUTO TECH FORTUNE Whitepaper V1.0 Please read this Whitepaper and any other documents as designated by Auto Tech Fortune before making any decision to purchase \$ATF Tokens.

The following is applicable:

- 1. This Whitepaper and its subject matter have not been registered under any legal or regulatory regime, nor have they been reviewed or approved by any regulatory authority.
- 2. This document is not a prospectus nor a solicitation for investment.

This document does not pertain to an offering of securities in any jurisdiction. Under no circumstances does this Whitepaper or any other materials constitute an offer or solicitation in any jurisdiction in which such offer, solicitation, or sale would be unlawful.

DISCLAIMER

Purpose

Auto Tech Fortune implements a transaction fee on both purchases and sales as a means to allocate rewards to eligible holders of \$ATF Token. These fees are collected and subsequently distributed automatically by the contract.

The fundamental concept behind Auto Tech Fortune is rooted in the notion that the funds individuals invest in DeFi are funds that they can afford to put at risk.

Moreover, these funds are also capable of being accumulated and redistributed to them as an extra reward for their loyalty and ongoing commitment to holding the tokens.

By being a holder of Auto Tech Fortune, one actively participates in the mission to address the issue of unequal distribution of rewards, thereby aiming to create a more equitable system.

Tokenomics:

- 11% transaction fee
- 6% fee to be Auto Distribution to eligible token holders
- 4% fee to marketing and development
- 1% fee to auto liquidity for stronger floor price of \$ATF

Total Supply: 10,000,000 \$ATF

Max Wallet: 3%

100% Pooled with initial liquidity (locked for 1 year from launch date)

Marketing and development will continue to buy back tokens and add to liquidity plus be used for exchange listings and promo subject to funds availability.

Auto Tech Fortune (ATF)

Leveraging the power of blockchain technology, ATF offers unique rewards to its holders, creating a win-win situation for both investors and participants.

One of the key features of ATF is its automatic redistribution mechanism.

Whenever a transaction involving ATF occurs, 6% of that transaction is automatically redistributed back to eligible holders in the form of BNB tokens. This means that you not only have the potential to earn passive income through token appreciation but also through the rewards generated by the transactions happening on the network.

To qualify for these rewards, you need to hold a minimum of 0.5% of the total supply of ATF tokens. By holding ATF, you become an active participant in the ecosystem and can benefit from the rewards generated by future transactions. This incentivizes long-term holding and creates a strong community of dedicated supporters.

Moreover, ATF aims to foster a sense of community and engagement among its holders. By holding ATF, you become a part of a growing network of like-minded individuals who share a common interest in blockchain technology. This community-driven approach allows for the exchange of ideas, collaboration, and the potential for future partnerships.

In addition to the rewards and community aspect, ATF also has the potential for token appreciation. As the project gains traction and more people recognize its value, the demand for ATF tokens may increase, leading to potential price appreciation.

This presents an opportunity for investors to not only earn rewards but also benefit from the overall growth of Auto Tech Fortune

Initial Liquidity 1 Year Locked with Mudra Lock Manager

Auto Tech Fortune Token takes our commitment to transparency and security seriously. That's why we have chosen to lock our liquidity using the Mudra Lock Manager for a period of 1 year.

Locking our liquidity for 1 year demonstrates our long-term vision and dedication to the success of our project. By utilizing the Mudra Lock Manager, we ensure that our liquidity tokens cannot be accessed or withdrawn for the entire duration of the lock period.

This decision provides several significant benefits for our community and investors. Liquidity lock instills confidence and trust in our project, as it shows that we are committed to maintaining a stable and fair ecosystem over an extended period.

Furthermore, the Mudra Lock Manager allows our community and potential investors to verify the locked liquidity on the blockchain, ensuring transparency and accountability.

1 Year Mudra Lock

Key Reasons We Use Mudra Manager:

- **Enhanced Stability:**

By locking liquidity, Mudra ensures a more stable and reliable trading environment. It prevents sudden price fluctuations and reduces the chances of rug pulls or other malicious activities that could harm investors.

- **Increased Investor Confidence:**

Locking liquidity demonstrates a commitment to transparency and trust. It reassures investors that the project team is serious about its goals and is less likely to engage in fraudulent practices. This can attract more investors and build a stronger community around the project.

- **Long-Term Sustainability:**

Locking liquidity can contribute to the long-term sustainability of the project. It ensures that there is always a certain amount of liquidity available for trading, even in times of market volatility or low trading volume.

- **Token Value Preservation:**

By locking liquidity, the project team shows a commitment to preserving the value of the token. This can lead to increased confidence in the project's potential and may attract more long-term investors.

Auto Tech Fortune (ATF) Rewards

We have implemented a unique system at Auto Tech Fortune (ATF) where token holders are rewarded for their participation. We have designed a mechanism to automatically distribute rewards to wallets that hold a minimum of 0.5% of the total supply of ATF tokens.

To be eligible for these automatic rewards, token holders must maintain at least 0.5% of the total supply of ATF tokens in their wallets. This ensures that those who hold a significant portion of the tokens are duly rewarded.

At Auto Tech Fortune, we prioritize transparency and fairness in our rewards distribution system. We guarantee that all funds resulting from the 6% transaction fee, will be solely used for redistribution to eligible holders.

Ensuring the security and reliability of our token is of utmost importance to us. We understand the significance of trust within the cryptocurrency community, and we strive to maintain the highest standards in our reward system.

Distribution of rewards to eligible token holders is done automatically by the smart contract. This means that there is no need for manual intervention or approval from the Auto Tech Fortune team. The smart contract executes the distribution process based on the predetermined criteria, ensuring a fair and efficient distribution of rewards to eligible holders.

By automating the reward distribution process, we eliminate any potential biases or human errors that may occur in manual distribution methods. This also ensures that rewards are distributed consistently and in a timely manner, providing a seamless experience for our token holders.

We believe that automating the reward distribution process not only increases transparency but also enhances the trust and confidence of our community in the Auto Tech Fortune ecosystem.

\$ATF Marketing and Development

We are committed to the growth and success of our project. As part of our dedication to our community, we will continue to buy back tokens manually, contributing to increased liquidity and stability for our token holders.

The tokens will be added to the liquidity pool, ensuring a healthy supply of tokens in the market. By enhancing liquidity, we aim to create a more favorable trading environment for our community, with reduced slippage and increased market depth.

In addition to enhancing liquidity, the repurchased tokens will also be utilized for exchange listings. We understand the importance of being listed on reputable exchanges, as it provides increased visibility and accessibility for our token. By allocating tokens for exchange listings, we aim to create more opportunities for our community to trade and interact with our token on various platforms.

Furthermore, We recognize the significance of spreading awareness about our project and attracting new users and investors. Through strategic marketing campaigns, we aim to reach a wider audience and highlight the unique features and benefits of our project.

It is important to note that the allocation of funds for token buyback, liquidity enhancement, exchange listings, promotions, and ongoing development efforts is subject to availability. We prioritize responsible financial management and will allocate funds based on the project's needs and financial resources.

Auto Tech Fortune (\$ATF) is listed on several coin listing sites, which enhances its liquidity and accessibility to users.

- **Coins Gem:** Coins Gem is a popular coin listing site that provides information about various cryptocurrencies, including their market cap, trading volume, and price charts. \$ATF's listing on Coins Gem allows users to track its performance and stay updated with its market trends.
- **Dextools:** Dextools is a platform that offers advanced trading tools and analytics for decentralized exchanges (DEXs). By being listed on Dextools, \$ATF gains exposure to a wide range of traders and investors who use the platform to monitor and analyze token performance.
- **Coin Hunt:** Coin Hunt is a community-driven platform that helps users discover new and promising cryptocurrencies. \$ATF's listing on Coin Hunt increases its visibility and allows users to find and learn more about the token.
- **Coin Sniper Net:** Coin Sniper Net is a coin listing site that features upcoming and newly launched cryptocurrencies. Being listed on Coin Sniper Net helps \$ATF gain attention from early adopters and investors looking for new investment opportunities.
- **Top 100 Token:** Top 100 Token is a platform that ranks cryptocurrencies based on their market capitalization. \$ATF's listing on Top 100 Token showcases its market position and potential among other cryptocurrencies.
- **Coin Discovery:** Coin Discovery is a platform that provides information on trending and newly listed cryptocurrencies. \$ATF's listing on Coin Discovery helps

Auto Tech Fortune (\$ATF) has implemented a swapping feature using VOLTICHANGE, a Deflationary DEX (Decentralized Exchange).

This means that users can directly swap \$ATF tokens on the Auto Tech Fortune website using VOLTICHANGE.

One notable feature of VOLTICHANGE is that it implements a deflationary mechanism. This means that with each transaction made using VOLTICHANGE, 0.25% of the transaction value is automatically burned. This burning mechanism helps reduce the total supply of \$ATF tokens over time, potentially leading to increased scarcity and value.

It's important to note that when using VOLTICHANGE, users are required to agree to the terms and conditions set by the platform. These terms and conditions outline the rules and guidelines for using VOLTICHANGE and ensure a safe and secure trading environment for all users.

Auto Tech Fortune also acknowledges that the implementation of a burn mechanism can be tailored to the project's specific use case and community preferences. If deemed appropriate and desired by the community, Auto Tech Fortune may consider implementing its own burn mechanism in the future. This would further contribute to reducing the token supply and potentially enhancing the value of \$ATF tokens.

By implementing swapping on VOLTICHANGE and incorporating a deflationary mechanism, Auto Tech Fortune aims to provide users with a seamless and efficient way to swap \$ATF tokens while also potentially increasing the value of the token over time.

Auto Tech Fortune (ATF) will be pursuing listings on various prominent cryptocurrency exchanges. Our primary focus for the initial listing will be Tokpie Exchange, as we aim to be the first exchange where our token is listed.

Here are the key features and benefits of listing on **Tokpie Exchange**:

- **USDT Market Pair:** Our token will be listed with the USDT market pair, allowing users to easily trade ATF tokens with stablecoin USDT. This provides a stable trading experience and reduces the exposure to volatility.
- **Supported by CoinMarketCap (CMC) and CoinGecko:** Listing on these popular tracking platforms ensures that our token's information, including price and market data, is readily available to a wide range of users and investors.
- **Popular Altcoins DApp:** Our token will be listed on Tokpie's Popular Altcoins DApp, which helps to increase liquidity on decentralized exchanges (DEX). This will enable our community to trade ATF tokens with ease and convenience.
- **Explorer Integration:** We will ensure that the ATF token price and market cap are visible on blockchain explorers. This allows token holders to easily track the value of their holdings in USD equivalent and stay updated with the latest price movements.
- **Additional Listings:** We will also receive listings on other reputable cryptocurrency tracking platforms such as Coinpaprika, Coincodex, Livecoinwatch, CoinCheckUp, Coindataflow, Coincost, Blockspot, Digitalcoinprice, TokenInsight and more!

As our token gains traction and our community grows, we will actively pursue listings on other reputable cryptocurrency exchanges. This will increase the visibility and accessibility of ATF tokens to a wider range of users and investors.

Please note that the process of listing on exchanges may vary and is subject to the individual requirements and procedures of each exchange. We will work diligently to meet all necessary criteria and ensure a smooth listing process on each platform. By pursuing listings on various prominent cryptocurrency exchanges, we aim to create a vibrant and active trading environment for ATF tokens, ultimately enhancing the overall value and utility of our token for our community.

Auto Tech Fortune Partnership Opportunities

Auto Tech Fortune (ATF) is a dynamic and innovative BSC token project, and we will be seeking potential partnerships to further enhance our ecosystem. We understand the value of collaboration and believe that partnering with other projects can lead to mutual benefits and increased success.

Criteria for Partnership

When considering potential partnerships, ATF takes into account several key factors:

- **Token Utility:** We look for projects that have a strong use case for their tokens and align with our vision of revolutionizing the blockchain industry. Partnerships should involve the integration of tokens in a meaningful way that adds value to both ecosystems.
- **Secure Contracts:** Security is of utmost importance to us. We prioritize partnering with projects that have robust and audited smart contracts to ensure the safety of our users' funds and data.
- **Reputable Developers:** We value partnerships with projects that have a proven track record and a team of experienced developers. This ensures that the partnership will be built on a solid foundation of expertise and professionalism.
- **Market Capitalization:** We consider the market capitalization of potential partners to evaluate their stability and potential for growth. Projects with a strong market presence and a sizable user base are more likely to be considered for partnership.
- **Liquidity:** Partnering with projects that have high liquidity can provide our users with enhanced trading opportunities and a seamless user experience. We prioritize partnerships that can offer liquidity to our token holders.

Benefits of Partnership

Partnering with ATF can offer several benefits to potential collaborators.

Note: Not every Partnership necessarily needs to be another token
